Dear FCC:

We are on a very limited income and we need the tracfone as we go into town or any place we go in our 1985 car. It makes us feel more secure on the road. We can not keep meeting more and more raises in our cost of living. Everytime we turn around costs go up, our drug bills are out of this world and they are necessary too. PLEASE do not RAISE OUR FEES FOR THE TRACFONE.
